DATUM

Coordinates shown are CCS83(2011), zone 2 epoch 2010.00.

4 hour observations for B1, B2, B4, B5, B6 & B7 were sent through opus. Base was set at B4 and RTK ties were observed to B1, B2, B5, B6 & B7. The average coordinate from the RTK ties and opus solution was used.

Elevations shown are NAVD88, based on holding the opus elevation of 158.20' for point B5 and running levels through B1, B2, B4, B6, B7 & 1000.

Coordinates and elevations shown are in U.S. survey feet.

An average combined factor of 0.99991 will be used for this project. Divide grid distance by 0.99991 to obtain ground distances.
